In the year XX, the human population exhausted the world's resources, leading to cataclysmic environment changes and the imminent extinction of all life on the planet. Frantic space exploration became the world's focus, but failed to find a new world for the human race. In desperation, humanity went digital. Minds were scanned, encoded, and transferred to the virtual world of Grandosa. Manual labor and power production were entirely automated. Reproduction among those once human is now a cold, sterile affair fraught with new complications. Regal is a young boy who was born 222 years after the inception of Grandosa. He is what is referred to as a Soulless; someone accused of lacking a soul due to diminished emotions and driven by logic. His parents abandoned him, choosing the Eternal Rest. He is left with no one to rely on other than himself as a series of unfortunate events force him to adjust his outlook on life. Regal's school years teach him that there is more to this world than meets the eye. What he doesn't yet realize is that his future is full of turmoil that will threaten his very existence. His only path through these trials is to rise above, to stand and defend a life that no one other than himself can see.

The magnificent and definitive history of the Eternal City, narrated by a master historian. Why does Rome continue to exert a hold on our imagination? How did the "Caput mundi" come to play such a critical role in the development of Western civilization? Ferdinand Addis addresses these questions by tracing the history of the "Eternal City" told through the dramatic key moments in its history: from the mythic founding of Rome in 753 BC, via such landmarks as the murder of Caesar in 44 BC, the coronation of Charlemagne in AD 800 and the reinvention of the imperial ideal, the painting of the Sistine chapel, the trial of Galileo, Mussolini's March on Rome of 1922, the release of Fellini's *La Dolce Vita* in 1960, and the Occupy riots of 2011. City of the Seven Hills, spiritual home of Catholic Christianity, city of the artistic imagination, enduring symbol of our common European heritage—Rome has inspired,

charmed, and tempted empire-builders, dreamers, writers, and travelers across the twenty-seven centuries of its existence. Ferdinand Addis tells this rich story in a grand narrative style for a new generation of readers.

A classic work of nature and humanity, by renowned writer Peter Matthiessen (1927-2014), author of the National Book Award-winning *The Snow Leopard* and the new novel *In Paradise* Peter Matthiessen crisscrossed 20,000 miles of the South American wilderness, from the Amazon rain forests to Machu Picchu, high in the Andes, down to Tierra del Fuego and back. He followed the trails of old explorers, encountered river bandits, wild tribesmen, and the evidence of ancient ruins, and discovered fossils in the depths of the Peruvian jungle. Filled with observations and descriptions of the people and the fading wildlife of this vast world to the south, *The Cloud Forest* is his incisive, wry report of his expedition into some of the last and most exotic wild terrains in the world. "Men, fix bayonets!" With a grand cheer, the men fixed their bayonets and Sallie stood her ground waiting for her order. They waited as they watched Iverson's men scrambling back to their commander's position. "Charge!" She and Price jumped the stone wall after Coulter gave the order and the men surged out in a glorious concert. She, starting to bark along with the cheering of the troops, had all the adrenaline in the world pumping through her veins. Volume 4: *Eternal Light of Peace*, takes place on a largely ignored portion of the battlefield: Oak Ridge and Oak Hill. Introduced are characters who will touch your heart.

For over half a century, acclaimed photographer Ruth Bernhard has worked to "simplify, isolate, and give emphasis to form with greatest clarity" in her radiant photographs of the female nude. Now, with Chronicle Books' timely reissue of her best-selling volume, *The Eternal Body*, Bernhard's most evocative images are once again available in a superb collection, complete with an insightful text, that pays tribute to a living legend. Hauntingly sensual yet classically reserved, the book's ethereal duotone photographs appear to be illuminated from within so that even the simplest lines of the human form -- a draped torso, a curved neck, an angled limb -- take on a complexity not often seen in work of this kind. A master artist whose technical prowess places her among the ranks of the greatest photographers of our time, Ruth Bernhard has created a masterpiece of expression and sensitivity in *The Eternal Body*.

Simmons (Drood, The Terror) calls, “an unholy spawn of I Am Legend out of ‘Salem’s Lot,” concludes with The Night Eternal. The magnificent, if monstrously warped brainchild of cinematic horror master Guillermo del Toro (Pan’s Labyrinth, Hellboy) and Chuck Hogan—whose novel Prince of Thieves, was praised as, “one of the 10 best books of the year” by Stephen King—The Night Eternal begins where The Strain and The Fall left off: with the last remnants of humankind enslaved by the vampire masters in a world forever shrouded by nuclear winter. Still, a small band of the living fights on in the shadows, in the final book of the ingenious dark fantasy trilogy that Newsweek says is, “good enough to make us break that vow to swear off vampire stories.”
