Nursing Theory

Family nursing is a part of the primary care provided to patients of all ages, ranging from infant to geriatric health. Nurses assess the health of the entire family to identify health problems and risk factors, help develop interventions to address health concerns, and implement the interventions to improve the health of the individual and family.

Family Nursing - Nursing Theory

Prepare for the real world of family nursing care! Explore family nursing the way it's practiced today-with a theory-guided, evidence-based approach to care throughout the family life cycle that responds to the needs of families and adapts to the changing dynamics of the health care system. From health promotion to end of life, a streamlined organization delivers the clinical guidance you need to care for families.
