This volume brings together some of the many unheard voices of scholars studying law and ethics within Muslim societies. It features over 200 abstracts with bibliographical details in three languages (English, Arabic and Turkish), giving access to information about original post-1800 scholarly publications from Muslim contexts in the fields of law and ethics from different Muslim societies. The volume highlights the diversity of interpretations of law and ethics across these societies and creates access to, and reinforces communication between, scholars and institutions where sharing of knowledge and information has often been hindered by language barriers. --jacket.

This multidisciplinary volume explores the role of Islamic law within the dynamic processes of postcolonial transformation, nation building, and social reform. Here, eleven international scholars examine Islamic law in several contemporary sociopolitical contexts, focusing specifically on Malaysia, Indonesia, Pakistan, China, Tunisia, Nigeria, the United States, and the International Islamic Fiqh Academy (IIFA) of the Organization of Islamic Cooperation (OIC). The contributors also address the entanglement of Islamic law and ethics with the history of Muslim religious discourses, shifts toward modernity, gender relations, and efforts to construct exclusive or plural national communities. *Sharia Dynamics*, at once enchanting and enlightening, is a must-read for scholars of contemporary Islam.

This study examines the emergence of new forms of Islamic spirituality in Indonesia identified as *Majlis Dhikr*. These *Majlis Dhikr* groups have proliferated on Java in the last two decades, both in urban and rural areas, and have attracted followers from a wide social background. The diverse aspects of these *Majlis Dhikr* groups - their rituals, teachings and strategies of dissemination as well as the popular understanding of these rituals and their contestation by critics and opponents - are examined in detail and illustrated by reference to three particular groups - *Salawat Wahidiyat*, *Istighathat Ihsaniyyat* and *Dhikr al-Ghafilin* each of which has its own distinctive features and notable religious leadership. These *Majlis Dhikr* groups regard their activities as legitimate ritual practices that are in accordance with the legacy of Islamic Sufism based on the interpretation of the Qur'anic and Prophetic tradition.

This book provides new information about the development of Indonesian Muslims' thinking on issues of theology. This theological thought, especially as reflected in the works of the modernist Muslim thinkers, may be seen as a nascent systematic attempt to draw up the essential beliefs of Islam in Indonesian historical and cultural contexts.

From an Islamic perspective, although the ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

Professor Azra's meticulous study, using sources from the Middle East itself, shows how scholars in the seventeenth and eighteenth centuries were reconstructing the intellectual and socio-moral foundation of Muslim societies.
