This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. CHINESE LINK: Zhongwen Tiandi Level 2 provides a practical, learner-centered, and enjoyable language and culture learning experience for intermediate level Chinese learners, as well as an efficient and comprehensive teaching resource for instructors. The intermediate level in the Chinese Link: program, this series systematically emphasizes and integrates the 5Cs principles of the National Standards for Foreign Language Education—Communication, Cultures, Comparisons, Connections, and Communities—throughout the program. While learners of Chinese at the intermediate level need to continue to build their mastery of commonly used vocabulary and grammatical structures, they also need to begin to train for advanced level language usage: Chinese Link Level 2 supports these two needs. Chinese Link Level 2 continues to systematically build learners' abilities in the four skills of listening, speaking, reading, and writing so that they can reach the intermediate level of competence. The content and exercises in the intermediate level program build upon what has been studied in the introductory level program, gradually adding more sophisticated vocabulary

and grammatical structures. Frequent consolidation and review exercises are included. Chinese Link Level 2 also helps learners get ready for advanced Chinese study by introducing formal and written expressions and increasing students' media literacy. This is accomplished by providing exposure to common Chinese idioms and the stories behind them, and by including texts written in the style of newspaper, magazines, and Internet news articles. Chinese Link Level 2 / Part 1 is comprised of 10 lessons, presenting traditional and simplified character versions side-by-side, allowing students to focus on one or the other, or to see the variations between the characters. Chinese Link Level 2 Parts 1 and 2 are designed to be completed in an academic year of college-level study.

Winner of the 2010 Non-Fiction National Book Award Patti Smith's evocative, honest and moving coming-of-age story of her extraordinary relationship with the artist Robert Mapplethorpe

Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion—on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. .

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
