Check Engine Light I have a komarsu fg25t-16 that I replaced the injectors on and when I started it afterwards I forgot to plug the MAF sensor back in so the check engine light came on. I ran it for about 30 seconds before I realized what the issue was so I plugged in but the light is still on.

~~Check Engine Light. A discussion in Forkliftaction's forum ...~~

I had a Caterpillar today that had the check engine light on, no codes displayed. It was the 1805 code. The tail light bulb filament broke and swung over hitting the filament for the brake light inside the bulb. That put the check engine light on even though the lights were off and brake not being used. In other words, check engine light on, operator shuts it down, needed a new bulb.
