Semantic compaction,, conceptually described as polysemic iconic encoding, is one of the three ways to represent language in Augmentative and alternative communication. It is a system utilized in AAC devices in which sequences of icons are combined in order to form a word or a phrase. The goal is to increase independent communication in individuals who cannot use speech.

Minspeak is the only patented system for Semantic Compaction and is based on multi-meaning icons that code vocabulary in short

Semantic compaction - Wikipedia

To disinfect everything but the display, use a solution of vinegar and water ($\frac{1}{4}$ cup vinegar to 1 cup water). Wipe the case (not the display) using a cloth dampened with this solution. Wash the Keyguard frame, Keyguard, and TouchGuide separately with the vinegar and water solution. Allow all equipment to air dry.
