The original Saber family was developed for the US military around 1989, and is noted for its long, thin shape. The Saber receiver probably has the best selectivity that has ever been seen in a portable. These handhelds are tough, popular radios still in use in the military / industrial / public service / commercial and private user environment.

Motorola Saber Information Page - Repeater Builder

The SABER series of portable radios was developed by Motorola in 1989. The radios were initially developed for the US Military and were noted for their long thin shape. The SABER later became popular with other users as well. Some SABER radios have built-in speech encryption (crypto).

Motorola SABER - Cryptomuseum

The Saber Series Portable Radio is no longer manufactured, however accessories and replacement parts may be available. For product availability please contact your local Motorola Dealer.

motorola
Motorola ASTRO Saber III Most of this information is for the Astro Saber, but since the XTS3000 and its family are programmed by the same RSS, a lot of the information will be relevant for it too. In actual fact - aside from cosmetics and accessory/antenna connections, the two radios (XTS-3000 and ASTRO Saber) are 'electrically identical' - S.S.-product support engineer, '99-01.
