Parking Layout Guidelines

Parking Layouts. Parking layouts are strategies for efficiently organizing multiple indoor or outdoor parking spaces. Often laid out in parking lots or designed as multi-level parking structures, parking facilities are essential for systematically storing vehicles in public and private settings. Parking parameters differ between countries and governments and each has developed their own standards.

---

Parking Layouts Dimensions & Drawings | Dimensions.com

the main design principles of the layout of parking areas and decks are to aid surveillance and the smooth passage of traffic and ensure customer and staff safety. where communal car parking areas are necessary they should be in small groups, close and adjacent to homes and must be within view of the active rooms within these homes.
