Power without love is reckless and abusive, and love without power is sentimental and anemic. ~ Martin Luther King Of the many wonderful quotes in Adam Kahane's book Power and Love: A Theory and Practice of Social Change, the one above by Martin Luther King provides the pithiest summary of Kahane's central thesis. His simple argument, elaborated at length in the book, is that we need both power and love to achieve effective social change when faced with tough challenges.

Adam takes Paul Tillich’s definitions as offering compelling ‘explanatory power’ (King studied Tillich for his doctorate, especially his book Love, Power and Justice). Tillich defines power as ‘the drive of everything living to realise itself, with increasing intensity and extensity’, while love is ‘the drive towards the unity of the separated’.

Adam Kahane argues that each is a reflection of two distinct, fundamental drives: power, the single-minded desire to achieve one's solitary purpose; and love, the drive towards unity. They are inextricable parts of human nature, so to achieve lasting change you have to be able to work fluidly with both. In fact, each needs the other.

This is because the seemingly contradictory drives behind these approaches--power, the desire to achieve one's purpose, and love, the urge to unite with others--are actually complementary. As Dr. Martin Luther King Jr. put it, "Power without love is reckless and abusive, and love without power is sentimental and anemic."

Using revealing stories from complex situations he has been involved in all over the world - the Middle East, South Africa, Europe, India, Guatemala, the Philippines, Australia, Canada and the United States - Kahane reveals how to dynamically balance power and love.

The power of love has become a renewed matter of feminist and non-feminist attention in the 21st century's theory debates. What is this power? Is it a form of domination? Or is it a liberating force in our contemporary societies? Within *Feminism and the Power of Love* lies the central argument that, although love is a crucial site of gendered power asymmetries, it is also a vital source of human empowerment that we cannot live without. Instead of emphasizing "either-or", this enlightening title puts the dualities and contradictions of love center stage. Indeed, by offering various theoretical perspectives on what makes love such a central value and motivator for people, this title will increase one's understanding as to why love can keep people in its grip - even when practiced in ways that deplete and oppress. In light of such analyses, the contributions within *Feminism and the Power of Love* present new perspectives on the conditions and characteristics of non-oppressive, mutually enhancing ways of loving. Bridging the gap between Feminist Affect Studies and Feminist Love Studies, this book will appeal to undergraduate and postgraduate students, including postdoctoral researchers, interested in fields such as women's and gender studies, sociology, political science, philosophy, cultural studies and sexuality studies.

The acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation," *All About Love* is a revelation about what causes a polarized society and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

*The Pinnacle of Power*, first book in the *Keeper of the Balance Trilogy*, combines all of the classic elements of epic fantasy and sci-fi with a little touch of political intrigue mystery, suspense, espionage and romance.

Sigmund Freud, the father of psychoanalysis, was among the first people in the world to talk about human personality and the way our mind is structured.

He was the one to introduce the three important structures: conscious, subconscious and unconscious mind. Today, we have come a long way from those times and we definitely know a lot more information on how the mind functions and the way these three structures are interconnected. In this book, you will find exciting information on how the mind and the subconscious are related. Moreover, you will be able to find out about the power of the conscious mind and the important role the unconscious plays in the whole picture. The fantastic read introduces you into the world of thoughts, presents visualization as a unique technique to stimulate mind power and also provides a glimpse into the laws of attraction. It is a wonderful reading experience and one that will leave you feeling richer in the end.

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book Paradise Lost, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.

"Love is the way. Love is the only way. Those who follow in my way follow in the way of unconditional, unselfish, sacrificial love. And that kind of love can change the world." --Bishop Michael Curry Two billion people watched Bishop Michael Curry deliver his sermon on the redemptive power of love at the royal wedding of Prince Harry and Meghan Markle (now the Duke and Duchess of Sussex) at Windsor Castle. Here, he shares the full text of the sermon, plus an introduction and four of his favorite sermons on the themes of love and social justice. The world has met Bishop Curry and has been moved by his riveting, hopeful, and deceptively simple message: love and acceptance are what we need in these strange times.

A groundbreaking work which presents a unified theory of human behaviour, grounded in economic thought.
