learners in your classroom.

Workbook developed from the Workshop Chemistry Project which explored, developed and applied the concept of peer-led team learning in problem-solving workshops in introductory chemistry courses.

Authored by Paul Hewitt, the pioneer of the enormously successful "concepts before computation" approach, Conceptual Physics boosts student success by first building a solid conceptual understanding of physics. The Three Step Learning Approach makes physics accessible to today's students. Exploration - Ignite interest with meaningful examples and hands-on activities. Concept Development - Expand understanding with engaging narrative and visuals, multimedia presentations, and a wide range of concept-development questions and exercises. Application - Reinforce and apply key concepts with hands-on laboratory work, critical thinking, and problem solving.

"For courses in General Chemistry (Lecture and Laboratory) and Qualitative Inorganic Analysis. This self-teaching lab manual presents a process for learning descriptive chemistry and the chemistry of the more common elements and their compounds in the format of a scheme of analysis. Students are challenged to call upon their manipulative and observational skills to provide the basis for identifying a substance or a mixture of substances. Part I describes the strategy of qualitative analysis so that students have a review of the principles readily available when they are engaged in the details of laboratory work; Part II presents the concepts involved in qualitative analysis, systematically dealing with the nature of the chemical compounds; Part III features well-tested analytical laboratory procedures."--Publisher's website.

Introduction to Physical Science Introduction to Matter Solids, Liquids, and Gases Elements and the Periodic Table Atoms and Bonding Chemical Reactions Acids, Bases, and Solutions Carbon Chemistry Motion Forces Forces in Fluids Work and Machines Energy Thermal Energy and Heat Characteristics of Waves Sound The Electromagnetic Spectrum Light Magnetism Electricity Using Electricity and Magnetism Electronic

Designed for students in Nebo School District, this text covers the Utah State Core Curriculum for chemistry with few additional topics.

Prentice Hall Physical Science: Concepts in Action helps students make the important connection between the science they read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!

"For courses in General, Organic, and Biological Chemistry (2 - Semester)" A Clear, Flexible Approach to Chemistry for the Modern Classroom Active learning, an increased focus on clinical examples, updates based on current teaching and research findings, and digital innovations designed to engage and personalize readers experience make "Fundamentals of General, Organic, and Biological Chemistry" simply the best choice for readers with a future in allied health. With the Eighth Edition, the authors make learning chemistry a more active experience through features designed to get readers doing chemistry. Every chapter features "Hands on Chemistry" sections that deepen readers understanding of chemistry by having them perform elementary experiments with everyday household items. Group Problems at the end of every chapter are designed for in-class use and motivate readers to carefully think about higher-level problems, such as how concepts fit together and how to apply these concepts in a clinical application. All of the chapter openers, including many of the Chemistry in Action boxes and end-of-chapter problems, have been rewritten for a stronger clinical focus that provides more relevance to allied health majors. All content has been updated for the modern classroom with special attention to the biochemistry chapters, making the Eighth Edition of "Fundamentals of General, Organic and Biological Chemistry " the best choice for future allied health readers. This edition is fully integrated with MasteringChemistry to provide an interactive and engaging experience. Media resources include narrated Video Tutor Solutions for every book chapter that present how to work the most challenging problems and feature additional feedback and instruction from contributor Sara Madsen. NEW in MasteringChemistry is the Chemistry Primer, a diagnostic and remediation tool that provides pre-built assignments designed to get readers up to speed on Chemistry and Math skills at the beginning of the course so they come to class prepared to delve more deeply into topics. Also Available with MasteringChemistry MasteringChemistry is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and they encourage critical thinking and retention with in-class resources such as Learning Catalytics . Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever before, during, and after class. Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. Students, if interested in purchasing this title with MasteringChemistry, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MasteringChemistry, search for 0134033094 / 9780134033099 " Fundamentals of General, Organic, and Biological Chemistry Plus MasteringChemistry with eText -- Access Card Package " Package consists of: 0134143337 / 9780134143330 "MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Fundamentals of General, Organic, and Biological Chemistry" 0134015185 / 9780134015187 "Fundamentals of General, Organic, and Biological Chemistry" "
