Windows User ...

A user is created using CREATE USER command. In Teradata, a user is also similar to a database. They both can be assigned space and contain database objects except that the user is assigned a password. Syntax. Following is the syntax for CREATE USER. CREATE USER username AS [PERMANENT|PERM] = n BYTES PASSWORD = password TEMPORARY = n BYTES SPOOL = n BYTES; While creating a user, the values for user name, Permanent space and Password is mandatory.
