“The Trial of the Chicago 7” also marks a significant departure from Hollywood’s embrace of a false narrative about the Vietnam War era — first propagated by Richard Nixon, who claimed that the antiwar movement was a bigger enemy than the Vietnamese communists.

**Why ‘The Trial of the Chicago 7’ deserves praise – from an ...**

Calley's trial clearly demonstrated both how deeply the Vietnam War had divided our nation and how difficult it was for any court to deliver justice under such intense media coverage. Scrupulously fair to all parties involved, Belknap portrays Calley as both criminal and victim-guilty of the crimes of which he stood accused, but also an unintended scapegoat of the American military machine.

The trial took place in the U.S. District Court for the Northern District of Illinois and lasted five months, from September 24, 1969, to February 18, 1970. From the beginning, many observers found Judge Julius Hoffman to be far short of impartial toward the defendants.

One of the most highly publicized trials of its day, the Calley case emerged at a time when protests against the war were growing larger. Well aware of this, the Nixon administration sought to downplay the My Lai incident, which military officers in Vietnam had tried to cover up in order to protect their own careers and reputations.

Calling upon personal testimony and documents released under the Freedom of Information Act, chronicles the life of Henry Kissinger, linking him to events including the war in Indochina and genocide in East Timor.

Originally published: Chicago, Quadrangle Books, 1970.

Despite the historical importance of the Vietnam War, we know very little about what the Vietnamese people thought and felt prior to the conflict. Americans have tended to treat Vietnam as an extension of their own hopes and fears, successes and failures, rather than addressing the Vietnamese record. In this volume, David Marr offers the first serious intellectual history of Vietnam, focusing on the period just prior to full-scale revolutionary upheaval and protracted military conflict. He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people's war strategies employed subsequently against the French and the Americans. Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization. However, Vietnamese Tradition on Trial goes beyond simply accounting for anyone's victory or defeat to an informed description of intellectual currents in general. Replying for his information on a previously ignored corpus of books, pamphlets, periodicals, and leaflets, the author isolates eight issues of central concern to twentieth-century Vietnamese. The new intelligentsia—indubitably the product of a peculiar French colonial milieu, yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future—spearheaded every debate beginning ini 1925. After 1945, Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation. David Marr suggests that the new problems facing Vietnamese today make both of these approaches anachronistic. Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate, to formulate new explanations of reality, to test those explanations in practice, is the essential question lingering at the end of this study.

On May 17, 1968, at the height of the Vietnam War, nine men and women entered a Selective Service office outside Baltimore. They removed military draft records, took them outside, and set them afire with napalm. The Catholic activists involved in this protest against the war included Daniel and Philip Berrigan; all were found guilty of destroying government property and sentenced to three years in jail. Dan Berrigan fled but later turned himself in. The Trial of the Catonsville Nine became a powerful expression of the conflicts between conscience and conduct, power and justice, law and morality. Drawing on court transcripts, Berrigan wrote a dramatic account of the trial and the issues it so vividly embodied. The result is a landmark work of art that has been performed frequently over the past thirty-five years, both as a piece of theater and a motion picture.

Recounts the courtroom confrontation between millions of ex-soldiers, the chemical industry and the federal government, from the first stirrings of the lawyers in 1978 to the court plan to distribute a record two-hundred-million-dollar settlement in 1985

Based on classified documents and first-person interviews, a controversial history of the Vietnam War argues that American acts of violence against millions of Vietnamese civilians were a pervasive and systematic part of the war and that soldiers were deliberately trained and ordered to conduct hate-based slaughter campaigns.

Examines how the United States decides to wage war, focusing on war-making issues and controversies and discussing the impact of war on American society, the role of the legal system, and debates about wartime policies.
