#1 NEW YORK TIMES BESTSELLER • An eye-opening, no-holds-barred memoir about life in the Church of Scientology, now with a new afterword by the author—the outspoken actress and star of the A&E docuseries *Leah Remini: Scientology and the Aftermath*. Leah Remini has never been the type to hold her tongue. That willingness to speak her mind, stand her ground, and rattle the occasional cage has enabled this tough-talking girl from Brooklyn to forge an enduring and successful career in Hollywood. But being a troublemaker has come at a cost. That was never more evident than in 2013, when Remini loudly and publicly broke with the Church of Scientology. Now, in this frank, funny, poignant memoir, the former King of Queens star opens up about that experience for the first time, revealing the in-depth details of her painful split with the church and its controversial practices. Indoctrinated into the church as a

child while living with her mother and sister in New York, Remini eventually moved to Los Angeles, where her dreams of becoming an actress and advancing Scientology's causes grew increasingly intertwined. As an adult, she found the success she'd worked so hard for, and with it a prominent place in the hierarchy of celebrity Scientologists alongside people such as Tom Cruise, Scientology's most high-profile adherent. Remini spent time directly with Cruise and was included among the guests at his 2006 wedding to Katie Holmes. But when she began to raise questions about some of the church's actions, she found herself a target. In the end, she was declared by the church to be a threat to their organization and therefore a "Suppressive Person," and as a result, all of her fellow parishioners—including members of her own family—were told to disconnect from her. Forever. Bold, brash, and bravely confessional, *Troublemaker* chronicles Leah Remini's remarkable journey toward emotional and spiritual freedom, both for herself and for her family. This is a memoir designed to reveal the hard-won truths of a life lived honestly—from an author unafraid of the consequences. Praise for *Troublemaker* "An aggressively honest memoir . . . *Troublemaker* is the most raw and revealing Scientology memoir to date."—*Entertainment Weekly* "Leah's story is a juicy, inside-Hollywood read, but it's more than that. It's a moving story about the value of questioning authority and how one woman survived a profound crisis of faith."—*People*

"With a new afterword by the author"—Cover.

Warning This is an independent addition to *Troublemaker*, meant to enhance your experience of the original book. If you have not yet bought the original copy, make sure to purchase it before buying this unofficial summary from aBookaDay. INTRODUCTION Leah Remini begins her autobiography by immediately discrediting herself. She starts by listing all the things she was done wrong in her life, as well as the different bad qualities of her personality that people close to her would happily point out. She does this because she is preempting anything the church of Scientology will say about her when the book comes out. This tactic of reverse self-preservation both protects her against any future public backlash from the church, as well as heightens the drama to come as it suggests to the reader that what she is about to reveal will be worse than everything she is admitting in these first few pages. Remini explains how she left the church of Scientology in 2013, and this book is her way of not only explaining why, but revealing the truth behind the church and honoring those who have had to undergo experiences similar to hers, but have had to keep them secret. She gives a basic definition of Scientology through a quote from

Read Book Troublemaker Surviving Hollywood And Scientology

its founder, L. Ron Hubbard. It is described as a set plan of rules, guidelines, and lessons that take an individual through a scientific-type of process as a means to achieve spiritual enlightenment. In this way, the aims of Scientology are to create a higher and more self-aware civilization where there is less crime and violence and humanity has been able to achieve a level of spiritual enlightenment. Remini explains that she was raised as a second generation Scientologist: meaning a person has either been born into it, or brought in to it as a child by their parents [as she was]. She goes on to explain the allure of Scientology: a sense of empowerment, a clear-cut path to enlightenment, and a very comprehensible and achievable method of hard work and study that will lead directly to a moment of "going clear," or rising above the pain and irrationality of the mind. Being raised in the church helped form a very "us against them" mentality in her early on—a theme that would continue throughout her life, particularly in Hollywood. She delves into a hypothetical situation, placing the reader directly in the shoes of a person being lured in by the church and showing just how persuasive and appealing it can be. After demonstrating the ease with which it is to become a member, Remini details the personal and monetary costs of being a Scientologist. During her thirty years as a member, she personally spent close to two million dollars on training and classes and donated nearly three million dollars to church causes. Most members, she states, will end up spending five hundred thousand dollars or more, regardless of their income or level, to reach the level of "going clear." Everything, she explains—money, work, relationships, personal emotions—goes back to the church. Remini finishes the introduction by explaining that this book will essentially separate her from the church for good. By leaving the church two years earlier, and now writing this, she has become a "SP" (or "Suppressive Person," someone who is a threat to Scientology) and is now not only cut off from the church, but open to aggressive discrediting by the leaders and members. An interesting point she makes is that most people who leave the church do so because they have been penalized for being defiant, questioning, and independent thinkers; yet, these are the same qualities that made them perfect for joining the church in the first place. Available on PC, Mac, smart phone, tablet or Kindle device. (c) 2015 All Rights Reserved

Jenna Miscavige Hill, niece of Church of Scientology leader David Miscavige, was raised as a Scientologist but left the controversial religion in 2005. In *Beyond Belief*, she shares her true story of life inside the upper ranks of the sect, details her experiences as a member Sea Org—the church's highest ministry, speaks of her "disconnection" from family outside of the organization, and tells the story of her ultimate escape. In this tell-all memoir, complete with family photographs from her time in the Church, Jenna Miscavige Hill, a prominent critic of Scientology who now helps others leave the organization, offers an insider's profile of the beliefs, rituals, and secrets of the religion that has captured the fascination of millions, including some of Hollywood's brightest stars such as Tom Cruise

Read Book Troublemaker Surviving Hollywood And Scientology

and John Travolta.

National Book Award Finalist A clear-sighted revelation, a deep penetration into the world of Scientology by the Pulitzer Prize-winning author of *The Looming Tower*, the now-classic study of al-Qaeda's 9/11 attack. Based on more than two hundred personal interviews with current and former Scientologists—both famous and less well known—and years of archival research, Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology. At the book's center, two men whom Wright brings vividly to life, showing how they have made Scientology what it is today: The darkly brilliant science-fiction writer L. Ron Hubbard, whose restless, expansive mind invented a new religion. And his successor, David Miscavige—tough and driven, with the unenviable task of preserving the church after the death of Hubbard. We learn about Scientology's complicated cosmology and special language. We see the ways in which the church pursues celebrities, such as Tom Cruise and John Travolta, and how such stars are used to advance the church's goals. And we meet the young idealists who have joined the Sea Org, the church's clergy, signing up with a billion-year contract. In *Going Clear*, Wright examines what fundamentally makes a religion a religion, and whether Scientology is, in fact, deserving of this constitutional protection. Employing all his exceptional journalistic skills of observation, understanding, and shaping a story into a compelling narrative, Lawrence Wright has given us an evenhanded yet keenly incisive book that reveals the very essence of what makes Scientology the institution it is.

Learn About Leah Remini And The Church Of Scientology In A Fraction Of The Time It Takes To Read The Actual Book!!! Get this 1# Amazon bestseller for just \$2.99. Regularly priced at \$9.99. Read on your PC, Mac, smart phone, tablet or Kindle deviceIn "Troublemaker: Surviving Hollywood and Scientology" Leah Remini tells her readers about a list she made which includes the things in her life that she is not proud of. The items on this list include cheating, lying, and not being considerate of others. She even goes on to include her family members and the problems they had with each other. Remini has a good reason for including this list of things she is not proud of in the beginning of her book. She is worried that the Church of Scientology might make these faults known to the world in an attempt to defame her character. Because of this, Remini wanted to be the first one to tell her story to the world. Some of the things that she lists as being problems in her past are still plaguing her in the present moment. Remini has been a member of the Church of Scientology for about 30 years and out of all this time the Church of Scientology was unable to teach her how to eliminate her negative faults.
